## Customer Reviews

What can I say other than this series is a major favorite at our home. Amelia Bedelia's literal interpretation of idioms is a major source of entertainment for my little ones who now spent time

reading the books all by themselves. I wanted a series that said away from words such as dumb, and stupid which I see sometimes in other series and these books pretty much do that except for a few occasional sprinkling here and there. Will continue to buy and read them! It also seems to translate well with both boys and girls.

My 8 year old daughter does not like to read. It's not that she can't read, she just doesn't like it. She couldn't find anything that holds her interest --- and then we came across Amelia Bedelia. She reluctantly started reading the first one and found she loved it. It's interesting and easy for her to read and understand (second grade). She asked for all the books for Christmas. If you have a little one that doesn't like reading, try this series.

Bought these for my daughters, one whose name happens to be Amelia. She's only 2 but her older sisters enjoy reading the books. And I love the multipacks. They always sell them at the kids book fairs separately and for so much more money. Great deal.

Amelia Bedelia cracks me up and these chapter books are no exception. Great for third graders to read to themselves or grown-ups to read to littler ones. Buying them in a set is much more economical than buying them all separately.

An updated version of Amelia Bedelia! I tried reading the original series to my daughter and she was having a hard time relating although I still loved them. I came across this box set and decided to give it a try. It follows Amelia Bedelia as a kid and is hilarious! They did a great job of updating the stories surrounding Amelia and staying true to the literalness that Amelia thrives on. Definitely a great read!

My daughter loves these books. They're just as entertaining for the adults too!

Bought for my twin granddaughters. They both love the entire series.

my oldest daughter loves this series
