## Customer Reviews

I purchased this book for my 4 year old niece and she loves putting them together...the only issue is that once she removed them and put them back together...they do get a bit worn. But other than that is a great gift.

I bought this a long time ago when my daughter was younger. She loved puzzle books like this type so I was very excited to see that there is even a Puzzle Bible. She loved it the day we received it and used it almost everyday. Now, being 5, her interest still exist but for a more challenging puzzles, and so I am keeping this one for my other daughter who is now 1 1/2. Overall, it is a great way to discuss the stories while doing the puzzle with your kids.

I hate to give such a low rating without actually seeing or experiencing the product but I never received it and I still have yet to receive my refund so that's why I have given it a low rating. This product was supposed to be a Christmas present to my child and maybe it's a good thing she didn't know about it because she would've been SO disappointed because she loves puzzles.

A nice book---gave to great-grandchildren
