Every Hill And Mountain (The History Mystery Series Book 3)

Synopsis

Their discovery on the third floor of Hickory Hill is almost too much to bear. Since the Beautiful Houses computer software worked so well for the Old Dears™ family tree project, Abby™s college roommate Kate hopes the computer program will help her find out more about her ancestor Ned Greenfield. Abby and John reluctantly agree to help Kate, but only on the condition that she and her fiancé Ryan promise to keep the program a secret, because if the government ever discovered they possessed a computer program that allows you to rewind and fast-forward the lives of people it would surely want to get its hands on it. The two couples take a trip to the tiny town of Equality, set in the hills of southern Illinois and the breath-taking Shawnee National Forest.

According to Kate™s research, Ned Greenfield was born there at a place called Hickory Hill. The mayor, police chief, and townspeople are hospitable and helpful until the topic of Hickory Hill comes up. Then they are determined to keep them away. Eventually they find Hickory Hill on their own both the mansion and the lonely hill it sits upon. And what a perfect old house to time-surf in! Built in 1834, Hickory Hill stands sentinel over Half Moon Salt Mine where the original owner John Granger accumulated his blood-tainted fortune with the use of slave labor in the free state of Illinois the Land of Lincoln.

Abby and her friends meet Miss Granger, Hickory Hill™s current eccentric owner, and they eventually get the chance to run Beautiful Houses there. Their shocking discovery on the third floor concerning Kate™s ancestor Ned Greenfield is almost too much to bear. What they learn sends them racing to the opposite end of the state to find the missing link in Kate™s family tree. And there they are reminded that God is in the business of redemption that one day he will make all things new. What Readers Are Saying This is the first five star rating I've given in hundreds of books. The story plot is unusual and wonderful in so many ways.

Loved the premise, the story line, the perspective, Christian background everything! This is a great series. Looking forward to more. Beautifully written! The characters are believable and endearing. I am about to finish the second series and hope more come out soon because I just can't get enough. I just want more of this writer™s books. These books are just amazing as the author takes you back to a time in history so you can live it. (N. Dester)

This series of books is exactly what I have been looking for! It™s not only a refreshing change from all the filth and violence in much of the modern fiction I've read, it's also very well written, imaginative yet informative, and well researched. Something I would love to have my 13 year old daughter read!

Love, love, love this series. Sad to finish, but happy there are more books to read by this author. Next up, Once Again! (Melissa S) Only a great author could weave all of the genres together the way she did. There is a great balance between what

happened in the past and why and how it affects the present. • Nicely Done! • (J Hall) • This is one journey through time you won't want to miss. Just be sure to bring a box of tissue with you as this may well be the most emotional journey yet! • I am completely enchanted with this series. I think that this third book may be my favorite yet, because it truly elicited emotional responses from me. • (Tiffany A Harkleroad, Vine Voice) • Every Hill and Mountain is historical Christian fiction and completes the History Mystery time travel trilogy. Every Hill and Mountain: 19th century, time travel romance novels, time travel historical, historical fantasy romance, metaphysical and visionary

Customer Reviews

Well done! Here is the last installment of the series which concludes with hope, redemption and open-ended futures for the characters. I read Time and Again (Book #1) followed by Unclaimed Legacy (Book #2) and while I enjoyed both of those novels, this last novel takes the cake! The novel is mixture of many themes and subplots all taking place in various parts of Illinois. In case you haven't read the others. I would suggest reading the prior novels first as they set the stage for Every Hill and Mountain. The basic storyline is a computer program is discovered that is able to show the history of a house including former occupants in different eras. At first, Merri used her computer to

help her with the tutoring she was receiving from Abby. Abby worked with Merri as a summer project for her degree. When she first met Merri, all she could imagine was returning home to her parents. As the summer progresses, the computer's special program begins to take center stage as it introduces history in a unique way though not all history is pleasant to witness by Abby or Merri. In the final novel, Katy comes to where Abby is living for the summer with news that she is now engaged, and the adventure takes off once again. In order for the program to work, the computer must be near historic places giving those watching the opportunity to time travel and witness events first hand. Abby has tried to explain the programs uniqueness to Katy, but until Katy experiences it herself, she is doubtful to say the least. Katy's fianc  Ryan seems to have ulterior motives for accompanying Katy for this trip that later comes to light. Katy is looking to complete her genealogy in order to paint a mural of her family tree.
