# Reading Skills: Grade 3 (Flash Kids Harcourt Family Learning)

## Synopsis

By extracting significant information from the passages in this workbook, readers will gain skills that will help them become better readers. Answering questions about the material will help readers gain confidence in how well they are able to understand what they read. Harcourt Family Learning Workbooks are a comprehensive line of workbook developed through a partnership with Harcourt, a leading educational publisher. Based on national teaching standards, these workbooks provide complete practice in math, reading, and other key subject areas.

Age Range: 7 and up

Grade Level: 3 and up

## Customer Reviews

If you're looking for a series for teaching reading skills, this is it! Each book in the series covers the following topics: Facts, Sequence, Context, Main Ideas, Conclusions, and Inference. Each lesson contains a high-interest, short story followed immediately with questions. After coming across two of the workbooks in this series, I searched for the rest of them. I highly recommend these workbooks for their ease of use and high-interest content.

Used this book daily as a morning warm-up for about 15-20 minutes. A good test prep book for standardized testing. A fun way to make sure various skills and test taking strategies are constantly

practiced and reviewed. Get it.

Awesome! Chapters are sequenced in a logical way. My daughter finished 2 grade reading skill book when she was in the 1st grade. Now she finished half-way through this book as a 2nd grader.

We home school and my son enjoys this brand of curriculum. He doesn't dread doing his school work when we use these books. They are very well put together and the sequencing is perfect.

Awesome book for kids...my nephew advanced a lot with it and now my daughter is reading and working on it too...a must buy..great service super fast delivery will order again.

The book is well structured, interesting and attractively illustrated. the lessons are clear and easy to understand. the children love it very much.

My daughter had the book and enjoyed doing it. She sometimes would comment on what she just read. Obviously it is interesting and informative.
