# If You Were A Fraction (Math Fun)

## Synopsis

If you were a fraction, you be part of a whole. You could be part of a pizza or part of pie. You could be part of an apple or part of a pear. What else could you be if you were a fraction?

## Book Information

Lexile Measure: 620L (What's this?)

Series: Math Fun

Paperback: 24 pages

Publisher: Picture Window Books; Math Fun edition (September 1, 2008)

Language: English

ISBN-10: 140484791X

ISBN-13: 978-1404847910

Product Dimensions: 10.6 x 0.1 x 8.6 inches

Shipping Weight: 1.6 ounces (View shipping rates and policies)

Average Customer Review: 4.6 out of 5 stars [See all reviews](#) (11 customer reviews)

Best Sellers Rank: #109,314 in Books (See Top 100 in Books) #35 in [Books > Children's Books > Education & Reference > Math > Fractions](#) #30217 in [Books > Reference](#)

Age Range: 7 - 9 years

Grade Level: 1 - 4

## Customer Reviews

This book is fun. We have this one and David A. Adler's "Working with Fractions" -- both get the job done with great illustrations and very clear text. I like this one a bit better than Adler's book, and I think it is because it shows how the same shape can be split into fractions different ways (for example, a flag is split vertically, then horizontally). Great choice -- give it a try.

This is a great way to introduce fractions. I used this story in my second grade class and my students really go the concept of fractions.

I read this book to my 3rd grade students as part of our unit on fractions and they absolutely loved it! I didn't know students could love fractions so much!

Great complement to our math work with fractions in third grade.

The students certainly enjoyed this book!

Another great book about fractions!
