Customer Reviews

THOUGHTS:// If I may be so bold, reading this novel seriously felt like watching a movie; I don't even feel as though I actually read a book! Seriously, my mind is blown away right now// Lisa Harris weaves conflict, betrayal, loss, faith, agony, willpower, integrity and triumph into his epic novel. The emotions she captures behind her writing is exceptional; she anchors you on a hope and faith that you are familiar with. Needless to say, her expertise and passion for justice, mystery and crime really makes her who stand out// The suspense and the romance were well-developed within the

plot; I cried, I laughed, I muttered discontentedly, I was both captivated and entertained!// The introduction in itself is fraught with tension, and from there on the pulse pounding never stops; this is in all truth, the product of an author at the top of her game// Though read through a third-person narration, the characters truly color and carry the narrative. In other words, the author doesn't overwhelm the prose with her presence; this to me is a huge deal!// The narrative, as the title suggests, follows the story of Michael Hunt, an undercover cop, whose scheme for concealment is blown and is now on the run from both the Cartel and government officials.
