The Omega Conspiracy: Satan's Last Assault On God's Kingdom

Synopsis

Do we ever learn from history? What were the conditions on the Earth that resulted in its destruction except for Noah and his family? What are the conditions on the Earth today? Will history repeat itself in our time? I.D.E. Thomas reveals startling similarities between the past and today; between ancient peoples and modern peoples, signs that point to a return of mysterious beings known in the Bible as "Nephilim". The Omega Conspiracy could well be their final battle.

Ignore the guy calling this science fiction. This book makes a credible and documented case for the existence of UFOs (whatever their nature) almost better than anything in print, and I say that as the OWNER of a UFO bookstore in Roswell New Mexico! It also represents the Genesis 6 paradigm in an easy-to-understand and concise manner - again better than any book in print. I've given it to two pastors who were "wowed" and glad that I carry(ied) it here. I've sold many of course, and am disappointed that it is out of print. I am "on them" to reprint it, or to let me, so if they approve the project, contact me if interested in publisher authorized copies retyped by me, if is completely out, and the company does not reprint it. Try Mike Heiser's Facade which is really my overall best recommendation, but always find it hard to choose between these two books. I recommend both regularly to people who just want to know "if I'm only going to buy one book, what must it be?" Whether you begin your UFO reading with Omega Conspiracy, or end it, it's a must-read.

I read this book in one sitting. It gives a very believable explanation for the existence of UFO's, and the author uses scripture for his guide. I recommend that this book be added to anyone's collection, Christian or otherwise.

I.E.D. Thomas does a great job of tying together the Evidence for UFOs and Extra terrestrials with the Biblical evidence; And proposes a very interesting theory that the ancient Nephilim of Genises chapter 6 are our Modern ET'S. I would recommend this book to anyone interested in UFO's.

I just finished This book and before putting it down I called two of my relatives to insist they get this book for their Library. I especially like the way it combines Biblical text to past and modern day UFO encounters. I must have highlighted a sentence on every page. I'm actually looking forward to reading it again. If your into the Bible and are interested in UFO's this is a must have. But don't ask for mine. Love to interact with readers of similar interests ajax_max@yahoo.com

A masterpiece that is a must for any serious student of eschatolgy.Wonderfully written, thought provoking and doctrinally challenging to anyone who has put God into a religious box. A must read.

I found this book to be well-thoughtout, very well researched, provocative and right on the mark! The authors provided compelling evidence for the existence of UFOs and did a thorough examination of this phenomena in light of the Bible. The authors did a terrific job of bringing to light the sinister activities of the Nephilim, both past and present. Two thumbs-up!

Why all the UFO sightings?Why isn't there more physical evidence of these "vistors"?Who are the Nephilim spoken about in the Bible?What is the "real" reason the Flood had to wipe out life on earth?How could ancient civilizations have built things like the pyramids. . .feats that can't be accomplished today with supposed technology they had?Is there a new rise of evil that will give God reason to reign destruction on the world?These questions and others are addressed with convincing data and logical argument from scientific and biblical sources. . .and in less than 200 pages.If science and religion ever agreed on one thing, this is probably it. This book is worth reading as it is intriguing, enlightening and scary at the same time.Life can be stranger than fiction!

I must tell you that I read this book almost ten years ago. I loved it then as I do now and find that it is even more relevant as the years pass. After reading the book, I called Reverend Thomas and

chatted with him. I wanted to get him booked on Maury, Oprah or Montel and no one was interested. It goes to show that no one really wants to hear the truth. The book is fascinating, thoroughly.
